I am Tim and I am ten years old.

Yesterday on Sunday we all went to the forest together.

It begins right behind our house and we also like to take our dog Kalli with us. We have to take care though, that he does not run after the bunnies and gets lost because of that.

Normally we are too loud, so that we rarely get to see animals. But yesterday a huge deer crossed the path and even my little sister Lilli was silent as a mouse. My father even took a picture with his smartphone. I was able to show that picture in school right after, and all the other children were amazed.

Except from Lasse. He said that he had seen so many deer already, to which we can't even count yet. But if that's true? I think he is talker.
